1. [redacted] Met with Senator Milton Young and
went over his itinerary. Senator Young indicated that [redacted]

[redacted]
his trip. As to Saigon, the Senator indicated that while he wanted to go
he did not want to cause any difficulty and he stated he would make a final
decision based on word received as he got nearer the area. He appeared
to remember the Director's views on his going to Saigon. [redacted]

[redacted] The Senator
assured me that he would make time for these briefings cancelling any
of the other functions he has and would go anywhere that seemed necessary
for the briefings. I suggested to the Senator that upon his return we would
very much like to hear his views of the briefings and further suggested
that he take several hours to meet with us out at the Agency to get a
general briefing in an organized fashion on the Agency's role and place
in the Government structure. He indicated that he would like to do this
and will be in touch with us upon his return.

4. [] Handcarried to the Joint Committee on Atomic Energy a letter setting forth the names of those persons authorized to receive information at the Top Secret Restricted Data level.

George Murphy, of the Committee staff, advised me of his departure tomorrow for Europe in connection with his attendance as an observer to the Joint State, Defense, and AEC Security Inspection Review Team at the upcoming meeting in Paris and London. Murphy commented that he was going to use this trip as an opportunity to sound out various people with respect to their views on the MLF and PAL.

In talking with Murphy, I mentioned that we had received rumblings indirectly indicating that Jack Rosen, of the Committee staff, felt that the staff was not receiving sufficient information or cooperation from the Agency.

25X1

[] Murphy assured me that if Mr. Rosen had given such an impression it definitely was not an expression of feeling as far as the Joint Committee staff is concerned and that we should not be upset by any report to this effect.
